Next Steps

Introduction

This document consolidates the final website architecture for OnPoint Nurse & Home Care. It captures the complete page structure, the primary and secondary keyword targets for each page, the search / conversion intent behind every URL, and the media / assets the client must supply before production can begin. The final section lists the priority launch pages.

The strategy is built around three pillars: Home Nursing, Home Care, and Specialized Care — supported by a clear geographic architecture (Vancouver, Richmond, Burnaby, Surrey), a dedicated healthcare-professional funnel, and a trust + resource layer that feeds the commercial pages.

1. Core Website & Conversion Pages

These are the conversion-critical pages that anchor the site. They target broad discovery queries and convert users into consultations, assessments and bookings.

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
Home /	home care Vancouver	home nursing Vancouver, senior home care Vancouver, private home care Vancouver, in-home care Vancouver, elderly care at home	Broad discovery + immediate conversion	Professional team photos, RN/nurse photos, caregiver-client interaction photos, logo files, office/team images, client testimonials, review screenshots/links, short brand video if available
Contact / Book Care /contact/	home care consultation Vancouver	home care inquiry, book home care, nursing consultation Vancouver	Lead generation	Primary phone numbers, emergency/after-hours contact process, office address if applicable, service coverage confirmation
Get Care Now /get-care-now/	urgent home care Vancouver	immediate home care, urgent nursing care, emergency home care support	High urgency conversion	24/7 availability confirmation, emergency contact protocol, real team/on-call photos if available
Care Assessment	home care assessment	senior care assessment,	Users unsure what service	Actual assessment process, questions

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
/care-assessment /	Vancouver	nursing care assessment, care needs assessment	they need	currently used by the team, assessment team photos
How It Works /how-it-works/	how to arrange home care	how home care works, getting home nursing, start home care Vancouver	Education + conversion	Real onboarding/care process, assessment photos, care coordinator/team photos
Home Care Cost /home-care-cost/	cost of home care Vancouver	home care rates Vancouver, private home care cost, nursing care cost at home	Pricing research	Actual pricing model/ranges if approved, minimum hours, billing process, funding/insurance information if applicable

2. Home Nursing Pillar & Service Pages

The Home Nursing pillar is the main clinical authority hub. Each child page targets a specific nursing service with its own keyword cluster, intent and asset set.

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
Home Nursing /home-nursing/	home nursing Vancouver	private nurse Vancouver, nursing care at home, in-home nursing Vancouver, nurse at home	Main nursing service pillar	RN/LPN team photos, nurses providing care, credentials, uniforms, nursing equipment, clinical care environment at home
Post-Discharge Nursing /home-nursing/post-discharge-nursing/	post discharge care Vancouver	hospital discharge care, nursing after hospital discharge, hospital to home care, transitional care at home	High-value, urgent medical care	Nurse with patient at home, discharge documentation examples with private data removed, hospital-to-home process, clinical care imagery
Post-	post	post surgery care	Recovery	Recovery-care

OnPoint Nurse & Home Care · Final Sitemap, Keyword Mapping & Media Requirements

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
Operative Care /home-nursing/post-operative-care/	operative care Vancouver	at home, nursing after surgery, surgery recovery care, post surgical home care	support	photos, nurse assisting recovering patient, mobility/recovery support imagery
Wound Care /home-nursing/wound-care/	wound care Vancouver	wound care nurse Vancouver, wound dressing at home, home wound care, post surgical wound care	Clinical nursing intent	Wound-care nurse photos, sterile equipment, dressing supplies, clinical credentials — avoid graphic wounds unless necessary
Private Nursing /home-nursing/private-nursing/	private nurse Vancouver	private duty nurse Vancouver, in-home private nurse, private nursing care	Premium / complex care	Senior nursing staff, credentials, nurse-client interaction, professional portraits of nursing leadership
Medication Support /home-nursing/medication-support/	medication management for seniors Vancouver	medication reminders, medication assistance at home, senior medication support	Ongoing senior support	Medication support process, approved medication tools/organizers, nurse/caregiver photos
Palliative & End-of-Life Care /home-nursing/palliative-care/	palliative care at home Vancouver	end of life care Vancouver, hospice support at home, palliative home care	Sensitive, high-trust conversion	Compassionate family/patient imagery, palliative care team photos, private testimonials if available
Complex Home Nursing /home-nursing/complex-home-nursing/	complex home care Vancouver	complex nursing care at home, high acuity home care, advanced nursing support	Healthcare professional referrals + complex cases	Clinical leadership photos, credentials, care coordination process, nursing equipment / process visuals
24-Hour Nursing Care /home-nursing/24-hour-nursing-care/	24 hour nursing care Vancouver	round the clock nursing, continuous nursing care, overnight nurse Vancouver	High-value continuous care	Shift / team imagery, 24-hour availability process, nursing team photos, care coordination visuals

3. Home Care Pillar & Service Pages

The Home Care pillar covers non-clinical caregiver services: personal care, companionship, respite, condition-specific support and 24-hour / overnight cover.

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
Home Care /home-care/	home care Vancouver	in home care Vancouver, private home care, senior home care, elderly care at home	Main home care pillar	Real caregivers with seniors, personal care support, companionship photos, client homes if permissions allow
Personal Care /home-care/personal-care/	personal care for seniors Vancouver	elderly personal care, assistance with daily living, ADL assistance, personal support worker Vancouver	Daily care needs	Caregiver assisting with non-sensitive daily activities, mobility, dressing preparation, meal support
Companion Care /home-care/companion-care/	companion care Vancouver	senior companionship Vancouver, elderly companion, companion for seniors	Emotional / social support	Natural photos of caregivers and seniors talking, walking, reading, playing games, having meals
Respite Care /home-care/respite-care/	respite care Vancouver	caregiver respite Vancouver, temporary home care, caregiver relief, respite care for seniors	Sandwich Generation / caregiver burnout	Family caregiver photos, caregiver taking a break, professional caregiver taking over care, family testimonials
Dementia Care /home-care/dementia-care/	dementia care Vancouver	dementia home care, in-home dementia care, dementia caregiver Vancouver	Major service + condition intent	Specially trained caregivers, dementia care process, safe / home routine imagery, training certifications if available
Alzheimer's Care /home-care/alzheimers-care/	Alzheimer's care Vancouver	Alzheimer home care, Alzheimer's caregiver Vancouver, home care for Alzheimer's	Condition-specific intent	Similar to dementia page, but ideally unique client / caregiver imagery and Alzheimer's-specific training

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
		patients		assets
24-Hour Home Care /home-care/24-hour-home-care/	24 hour home care Vancouver	around the clock care, 24/7 home care Vancouver, continuous senior care	High-value care need	Day / night care team, caregiver shift coordination, overnight support imagery
Overnight Care /home-care/overnight-care/	overnight care for seniors Vancouver	overnight caregiver, nighttime senior care, overnight home care	Nighttime safety / caregiver relief	Caregiver in home setting, evening / nighttime support imagery, real shift team if possible
Senior Escort Services /home-care/senior-escort/	senior escort Vancouver	medical appointment escort, elderly appointment assistance, senior companion for appointments	Practical support	Caregiver accompanying senior to appointment, walking together, waiting room imagery — subject to permissions
Independent Home Care /home-care/independent-home-care/	independent home care Vancouver	private independent caregiver, personalized home care, flexible home care	Alternative to franchise-style positioning	Local team photos, personalized care interactions, care coordinator imagery

4. Situation-Based / Specialized Care Pages

These pages are particularly important because many adult children do not initially search for “home care.” They search based on what just happened.

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
Specialized Care /specialized-care/	specialized home care Vancouver	complex senior care, personalized home support	Service discovery	Combination of nursing, caregiver and family imagery
Hospital to Home Care /specialized-care/hospital-to-home-care/	hospital to home care Vancouver	transition from hospital to home, care after hospital discharge	Urgent transition	Hospital discharge process imagery, nurse arriving at home, care transition process
Care After a	care after a	senior fall	Urgent	Mobility assistance,

Page / URL	Primary Keyword Focus	Secondary / Supporting Keywords	Search / Conversion Intent	Media Required From Client
Fall /specialized-care/care-after-a-fall/	fall for seniors	recovery care, home care after fall, mobility support senior	safety / recovery	walker support, caregiver / nurse assisting senior — no staged “fall” imagery preferred
Caregiver Burnout & Support /specialized-care/caregiver-burnout/	caregiver burnout support Vancouver	overwhelmed caring for elderly parent, help caring for aging parent, caregiver relief	Emotional / problem awareness	Real family caregiver imagery, testimonials from adult children, respite-care stories
Aging in Place /specialized-care/aging-in-place/	aging in place Vancouver	senior living at home, support for seniors living independently, age at home	Planning / early-stage research	Seniors in their homes, caregivers supporting independence, home safety imagery
Complex Care at Home /specialized-care/complex-care-at-home/	complex care at home Vancouver	high needs home care, complex senior care, nursing support at home	High-acuity + referral	Clinical / nursing team, care coordination, advanced credentials, case-study material
Senior Safety & Mobility Support /specialized-care/senior-safety-mobility/	mobility assistance for seniors Vancouver	senior mobility support, fall prevention support, home safety for seniors	Safety + ongoing care	Mobility support, walkers, safe transfers, home environment photos

5. Condition-Based Pages

Recommendation: keep this section selective. Do not create thin pages for every disease.

Page / URL	Primary Keyword Focus	Supporting Keywords	Media Required From Client
Conditions Overview /conditions/	home care for medical conditions	specialized senior care, condition-specific home care	General care and nursing imagery
Dementia Home Care /conditions/demen	dementia home care Vancouver	care for parent with dementia, dementia	Dementia-trained caregiver assets, training /

Page / URL	Primary Keyword Focus	Supporting Keywords	Media Required From Client
tia-home-care/		caregiver	certifications
Alzheimer's Home Care /conditions/alzheimers-home-care/	Alzheimer's home care Vancouver	Alzheimer's caregiver, in-home Alzheimer's support	Caregiver / client routine imagery
Mobility Challenges /conditions/mobility-challenges/	home care for mobility issues	mobility assistance seniors, help walking elderly	Safe transfer / mobility support imagery
Chronic Condition Support /conditions/chronic-condition-support/	chronic illness home care Vancouver	nursing support chronic illness, long term home care	Nursing oversight / process imagery

6. Location Pages — Priority Geographic Architecture

These should be treated as major commercial SEO pages, not simple duplicate pages with the city name changed.

Primary location priority: 1. Vancouver · 2. Richmond · 3. Burnaby · 4. Surrey

Page / URL	Primary Keyword	Secondary Keywords	Required Local Content / Media
Areas We Serve /locations/	home care Metro Vancouver	home nursing Metro Vancouver, senior care Greater Vancouver	Service area map, confirmed coverage areas, team coverage information
Vancouver Home Care & Nursing /locations/vancouver/	home care Vancouver	home nursing Vancouver, senior home care Vancouver, private home care Vancouver, elderly care Vancouver	Vancouver-specific team / client photos, local testimonials, Vancouver service stories, neighbourhoods served if applicable
Richmond Home Care & Nursing /locations/richmond/	home care Richmond BC	home nursing Richmond BC, senior home care Richmond, elderly care Richmond	Richmond client / caregiver photos if possible, local testimonials, actual service experience in Richmond
Burnaby Home Care & Nursing /locations/burnaby/	home care Burnaby	home nursing Burnaby, senior home care Burnaby, elderly	Burnaby-specific testimonials, local team / service imagery

Page / URL	Primary Keyword	Secondary Keywords	Required Local Content / Media
		care Burnaby	
Surrey Home Care & Nursing /locations/surrey/	home care Surrey BC	home nursing Surrey BC, senior home care Surrey, elderly care Surrey	Surrey-specific service imagery / testimonials and confirmed service coverage
New Westminister /locations/new-westminister/	home care New Westminister	home nursing New Westminister, senior care New Westminister	Only build if service coverage and local relevance are confirmed

7. Priority City + Service Landing Pages

I would not launch all possible city / service combinations at once. That can create a large number of weak pages.

The first-priority combinations should be:

Page	Primary Keyword
/locations/vancouver/home-nursing/	home nursing Vancouver
/locations/vancouver/post-discharge-care/	post discharge care Vancouver
/locations/vancouver/dementia-care/	dementia care Vancouver
/locations/vancouver/24-hour-home-care/	24 hour home care Vancouver
/locations/richmond/home-nursing/	home nursing Richmond BC
/locations/richmond/home-care/	home care Richmond BC
/locations/burnaby/home-care/	home care Burnaby
/locations/burnaby/home-nursing/	home nursing Burnaby
/locations/surrey/home-care/	home care Surrey BC
/locations/surrey/home-nursing/	home nursing Surrey BC

Media requirement for all city-service pages

The client should ideally provide:

- Local client testimonials mentioning the city
- Local caregiver / team photos where possible
- Real examples of care provided in that city
- Confirmation of actual geographic coverage
- Local partnerships or referral relationships where appropriate

Important: the city pages should use genuinely differentiated local content, not just replace “Vancouver” with “Richmond.”

8. Healthcare Professional & Referral Pages

This is a separate conversion funnel — aimed at discharge planners, physicians and clinic staff.

Page / URL	Primary Keyword Focus	Secondary Keywords	Media Required
For Healthcare Professionals /healthcare-professionals/	home nursing referral Vancouver	refer patient home care, nursing agency referral, post discharge care referral	Clinical leadership photos, credentials, referral process, hospital / medical partnership details
Refer a Patient /refer-a-patient/	refer patient for home care	home nursing referral form, patient referral Vancouver	Referral workflow, approved forms, contact details, response-time commitment if available
Referral Process /healthcare-referral-process/	home care referral process	nursing referral process, discharge planner home care	Step-by-step actual workflow, clinical intake requirements, team / process photos
For Hospital Discharge Planners /healthcare-professionals/hospital-discharge-planners/	post discharge home care Vancouver	hospital discharge nursing, transitional care referral	Actual discharge coordination workflow and nursing leadership information
For Physicians & Clinics /healthcare-professionals/physician-referrals/	private nursing referral Vancouver	physician home care referral, nursing agency for patients	Professional credentials, communication process, referral contact information

9. Trust & Authority Pages

These pages build the credibility layer that every conversion page points back to.

Page / URL	Primary Keyword Focus	Purpose	Media Required
About Us /about-us/	home care company Vancouver	Brand trust	Founder story, leadership photos, office / team photos, company history
Our Care Team /our-care-team/	home care nurses Vancouver	Establish expertise	Professional headshots, names, credentials, bios
Why OnPoint /why-onpoint/	trusted home care Vancouver	Differentiation	Team, credentials, testimonials, process visuals
Reviews & Testimonials	best home care	Social proof	Google review access / link, written testimonials, video

Page / URL	Primary Keyword Focus	Purpose	Media Required
/reviews/	Vancouver		testimonials, client permissions
Care Stories /care-stories/	—	Emotional trust + case studies	Approved real stories, before / after situations where appropriate, family / client interviews and consent

10. Resource & Content Hub

The /resources/ section should support the commercial pages rather than becoming a random blog.

Content Cluster	Primary Keywords / Topics
Hospital Discharge	what to do after hospital discharge, home care after hospital discharge, nursing care after discharge
Dementia & Alzheimer's	when does dementia patient need home care, dementia caregiver support, Alzheimer's care at home
Caregiver Support	caregiver burnout, caring for elderly parent while working, respite care for caregivers
Senior Safety	fall prevention seniors, home safety for elderly, mobility support
Aging in Place	aging in place, can elderly parent live alone, helping seniors stay at home
Home Nursing	private nursing at home, when to hire a home nurse, wound care at home
Family Guides	how much home care does my parent need, choosing a home care provider, questions to ask a home care agency

11. Recommended Blog / Resource Pages for Initial Launch

Article / Resource	Main Keyword

13. Consolidated Client Media & Asset Checklist

To avoid relying entirely on stock photography, the client should provide the following before website production begins.

Asset Category	What We Need
Leadership	Professional photos and bios of founders, directors, RN / LPN leadership and care coordinators
Nursing Team	Professional photos of nurses in uniform, during appropriate home visits and care coordination
Caregivers	Real caregivers interacting naturally with seniors
Client Care	Approved photos / videos of real care situations, with consent
Services	Photos covering personal care, companionship, mobility support, appointments, post-discharge care and nursing
Video	1-3 short videos introducing OnPoint, nursing leadership and the care philosophy
Testimonials	Written testimonials, Google review access, screenshots and ideally 3-5 video testimonials
Credentials	Nursing licences / qualifications, certifications, memberships and accreditations that can legally be displayed

Asset Category	What We Need
Care Process	Actual assessment, onboarding, care planning and family communication workflow
24/7 Operations	Clear confirmation of what 24/7 means operationally, including after-hours response
Service Coverage	Exact cities, neighbourhoods and any geographic limitations
Pricing	Minimum hours, starting prices / ranges if approved, quote process and payment / funding information
Referral Process	Healthcare professional referral workflow, contact person and required patient information
Case Studies	3-5 anonymized or approved stories covering hospital discharge, dementia, respite and complex care
Brand Assets	Logo files, brand guidelines, colors, fonts, brochures and existing marketing materials
Review Evidence	Google Business Profile link and permission to use selected review excerpts
Local Assets	Vancouver, Richmond, Burnaby and Surrey-specific testimonials or service stories wherever available

14. Final Strategic Recommendation

The highest-priority pages for launch should be:

- Home
- Home Nursing
- Home Care
- Post-Discharge Nursing
- Post-Operative Care
- Private Nursing
- Wound Care
- Personal Care
- Dementia Care
- Respite Care
- 24-Hour Home Care
- Vancouver Location Page
- Richmond Location Page
- Burnaby Location Page
- Surrey Location Page
- Healthcare Professionals
- Refer a Patient
- About / Our Care Team
- Reviews
- Home Care Cost
- How It Works
- Get Care Now / Contact

Next Steps

Once the client confirms coverage of the launch-priority pages and supplies the assets in Section 13, the next phases are: (1) copywriting against the keyword map, (2) page template + component build, (3) location-page content development with genuinely local material for Vancouver, Richmond, Burnaby and Surrey, and (4) the healthcare-professional funnel and resource hub in parallel.
